Effective Communications Workshop

Learn to
communicate
EASILY with
ANYONE!

Have you ever wondered why it's so easy to get along with some people while relating to others takes enormous effort? Amy Groblewski's workshop, *Everything DiSC in the Workplace*, provides a research-validated model that gives customized information about your behavioral style's priorities and preferences.

Erica Hitt's workshop, *Communication isn't Just About Talking*, shows that how we communicate can be our most positive asset or our greatest liability. It's not only **what** you say, but **when** you say it, **where** you say it and **how** you say it that has the potential to motivate and encourage or humiliate and dishonor everyone around you.

Open to MTL Grads and Non-Grads
